Developmental Meets for 2019

Website for Registration: www.usatfutahyouth.weebly.com

Due to increased interest and growing numbers we are trying to make the registration process as simple as possible for these meets. So it will be the same as last year.

Meets will still operate as before where we will seed everything at the start lines of the events. So we **DON'T NEED** to know which events the athletes are doing ahead of time or who is coming to each meet.

Every athlete will be given a competitor number prior to meets and will have the same number assigned to them all season. We will provide new stickers at each meet.

Coaches will pick up a packet for their team at the beginning of each meet with numbers for each athlete and should collect all fees from their athletes and pay accordingly.

Unattached athletes will pick up their number at the registration table and pay there.

WHAT WE NEED TO KNOW AHEAD OF TIME:

****This will be a one-time registration process –
so you only need to register once for the whole Developmental season.****

We need to know Athletes' Full Name, Birthdate, Gender, and club affiliation (or UNA)

A Season waiver will also need to be signed by a parent

This can be done in one of 2 ways:

If you are a coach you can simply email a team roster to Jen@runTwolf.com. I have a team waiver for your parents to sign that I can email you. Or download it off the registration page. If you have additional athletes add on as the season progresses, simply email me your additions before the next race. Or you can upload it online at: www.usatfutahyouth.weebly.com

If you are Unattached (not running with a club) you can go online and fill out a form that will give us the needed information and it will have you electronically sign a waiver. This can be done throughout the season but the earlier the better so we can get you all set up in the system. The site is: www.usatfutahyouth.weebly.com.

If you have any questions please feel free to contact Jen Fitzgarrald email: Jen@RunTwolf.com or 810-472-0223.
